

# BIRTUKAN KUSSA

Software Engineering student  
from AASTU

## EDUCATION

### AASTU UNIVERSITY

Bachelor Of Software Engineering  
2022 - 2026

## ABOUT ME

Motivated Software Engineering student with a strong foundation in full-stack web development and software engineering principles. Experienced in building end-to-end web applications using JavaScript, Node.js, Express.js, HTML, and CSS. Passionate about developing scalable applications, learning new technologies, and contributing effectively to software development teams.

## WORK EXPERIENCE

- **online-food-ordering-system(Delivery Kitchen) on 2023**

Delivery Kitchen is a modern and responsive restaurant website designed for an online food delivery brand. It features a clean user interface, easy navigation, and essential sections like menu, ordering, and contact.

- **Calculator app with flutter on 2024**

Created a calculator application featuring basic arithmetic functionality and responsive user interaction.  
<https://calculator-five-flax-72.vercel.app/>

- **Traveling-website with react on 2025**

Built a responsive travel website with React, showcasing travel destinations and an interactive, user-friendly design

- **medLink web- app with Next js in 2026**

Built MedLink, a healthcare web application that links doctors and patients through an intuitive and responsive interface

## ACTIVITIES & LEADERSHIP

- Member of Google Developer Groups
- Participated in campus sports club activities and earned certification.
- Volunteered to support and guide freshman students during university orientation.

## OTHER SKILLS

- Digital Literacy
- Job Application Essentials
- Online & In-Person Tutoring

## CORE VALUES

### 1. **Curiosity**

- Keep learning new technologies and fundamentals.
- Ask "why" instead of just "how."
- Stay open to changing your mind when presented with better evidence.

### 2. **Ownership**

- Take responsibility for the quality of your work.
- Fix problems instead of passing them along.

### 3. **Empathy**

- Understand the needs of users.
- Respect teammates with different experience levels.
- Give constructive feedback and receive it gracefully.

### 3. **Reliability**

- Deliver what you promise.
- Communicate early if plans change.
- Build systems that are dependable and observable.
